

JAP-A-LAC

MAKES OLD FLOORS NEW

THERE are millions of old hard and soft wood floors that can be given a beautiful and sanitary finish similar to the demonstration shown on the opposite page. In order to insure first-class results, we recommend that you secure the services of a reliable painter for doing this work. The cost will depend largely upon the condition of the floor, but it will be much less than the cost of oil-cloth or linoleum.

"The Model Floor," finished according to our process, with a few rugs artistically arranged, presents a striking and beautiful appearance, giving the effect of hardwood, and is far superior in appearance to a painted floor.

Ask your painter to use *Jap-a-lac Floor and Interior Varnish (Natural)*, which is the most durable finish for this class of work, and dries with a hard, tough surface that is impervious to water and will not scratch or mar white. Your floors finished in this manner should be given a coat of *Jap-a-lac Floor and Interior Varnish (Natural)* at least once a year, to preserve their beauty and durability.

NOTE

A few brushfuls of **JAP-A-LAC FLOOR AND INTERIOR VARNISH (Natural)** applied occasionally on your floors (whether hard or soft wood), in front of doorways and other places subject to hard wear, will prevent the varnish from wearing through to the wood and disfiguring the most beautiful floor. Remove all dirt from the surface by washing with Sapolio and water, rinse with clear water, and allow the floor to dry before applying JAP-A-LAC. Linoleum should be protected where the wear is greatest in the same manner.

FOR SALE BY

(This demonstration board
patented August 11th, 1903,
S. C. 705,744.)

This section represents an old, unsightly floor.

This section represents the same floor, with the cracks filled with JAP-A-LAC CRACK and CREV. ICE FILLER, and covered with two coats of JAP-A-LAC GROUND COLOR.

This section shows how the floor looks after a coat of JAP-A-LAC GRAINING COLOR has been applied, and grained with the JAP-A-LAC GRAINING TOOL.

This section shows the completed floor after the application of two coats of JAP-A-LAC FLOOR AND INTERIOR VARNISH (NATURAL), transforming an old, unsightly floor into a perfect imitation of beautiful hardwood. This result can be accomplished only by the use of JAP-A-LAC.
