Subject: API / benzene proposal

David,
fyi some breaking news with respect to the Shanghai proposal. This has now also been raised by Exxon as an item for general discussion within the CEFIC Aromatic's Sector Group, and at least one EU representative (Chris Roythorne Medical Director, BP Amoco) has been invited to attend (and plans to go, apparently).

The message is reaching a larger audience even as we speak Regards

Tony Mallett,
HSE Toxicology Adviser and
Product Steward - Aromatics, London
