Since 1989, CSF has maintained a singleness of purpose that has guided the organization to become the most respected and trusted sportsmen's organization in the political arena. CSF's mission is to work with Congress, governors, and state legislatures to protect and advance hunting, angling, recreational shooting and trapping. The unique and collective force of the Congressional Sportsmen's Caucus (CSC), the Governors Sportsmen's Caucus (GSC) and the National Assembly of Sportsmen's Caucuses (NASC), working closely with CSF, and with the support of major hunting, angling, recreational shooting and trapping organizations, serves as an unprecedented network of pro-sportsman elected officials that advance the interests of America's hunters and anglers.

A Celebration of the Congressional Sportsmen's Caucus:
Our Leaders in Conservation

The bipartisan Congressional Sportsmen's Caucus (CSC) has grown into one of the largest and most effective caucuses in the US Congress with nearly 300 members of the House and Senate representing almost all 50 states.

The CSC, with direct support from CSF, has maintained its effectiveness in championing the sportsmen's interests in Congress even through shifts in political power. While the threats to sportsmen's traditions are ever present, the CSC remains an identified group of allies continuously working as pro-sportsmen elected officials to protect and advance hunting, angling, recreational shooting, and trapping.
