Subject: FW: Benzene EPi Meeting - August 31, 2000

---

Patsy,

Well, I was sort of right and sort of wrong when we spoke on Tuesday. The benzene meeting I'm attending on August 30th is not primarily for the proposed consortium. This one, however, is. Let me know if you need more information or have any trouble with the attachment. Contact information for API is included.

Deborah/Paula:

Please add Patsy Clegg of Shell Chemical to this distribution list.

Thank you.

Dave Steup
