Mr. Richard F. Cullinan
Monsey Products Company
Cold Stream Road
Kimberton, Penn. 19442

Dear Mr. Cullinan:

Thank you for your letter of September 20 advising that you cannot use any of our Union Carbide HPO or Carey 7RF-66 asbestos in your South Carolina plant.

Could you use the 9,300 pounds of Carey material we have at our Marietta plant in your Pennsylvania plant if we were to adjust the price to \$100.00/ton to offset the higher freight costs? Also, we have approximately 13,350 pounds of 7RF-66 in our Chicago plant which we would offer at the same price.

If you are interested in either of these small inventories, please let me know. If not and if you have any leads on others in your protective coating industry who might have need of this asbestos I would appreciate receiving this information.

Thank you very much.

Very truly yours,

Edward L. Aasen
Purchasing Manager
Gypsum Division
