Subject: Re: Southeast Michigan SO2

Just a quick update for everyone; the Region 5 meeting we discussed is set for January 17. This is the usual next step to determine whether a SIP can be developed or whether it is necessary to proceed to a FIP.

Tim,

Apologies for just getting back to you. Thank you very much for the additional materials. Looking forward to the Dec. 12 call and I will be sure to reach out beforehand if we need any other info. Anything else just let me know.

Best,
Alex

Subject: Southeast Michigan SO2

Alex - following on our telephone conversation, I am attaching three documents for your information:

- Our SO2 "white paper". The only development since this paper was written is that the Court has ruled against our Rule 430, as we discussed.
- An illustration of the nonattainment area and the air monitor which is referenced in the white paper.
- A letter we received, following the Rule 430 ruling from Region 5.

We look forward to seeing you next week and to working with you on the important regional and national policy issues which we believe this matter presents.

Have a good Thanksgiving.
