E. L. Shimley - Akron

General Motors ad hoc committee

C. L. Bradford
St. Louis

Larry, on various calls to General Motors locations, I have attempted to find out who is on the ad hoc Pydraul commission which will be making a recommendation regarding replacement fluids for Pydraul. I find that this list is confidential since G.M. does not want everyone and his brother contacting these people. However the following names have been mentioned:

Ed Kowalek - Chevy Nodular Foundry, Saginaw
Bud Hahn - Chevy Grey Iron Foundry, Saginaw
Rod Diehl - Chevy Bay City
Manuel Ben - Chevrolet Divisional Staff
Jerry Calhoun - Chevrolet Central Labs
Gene Ewing - Pontiac Motor Div., Pontiac
Bill Hard - Pontiac Motor Div., Pollution Control
Bob Sayre - Truck & Coach Div.
Paul Murphy - Central Foundry Div., Bedford
Ed Hoon - Central Foundry Div., Bedford
Bill Ward - Corporate Plant Engineering Staff
John Delos - Corporate Plant Engineering Staff

As I understand it, Ward is a standard standing committee member, but Delos only goes when Ward can't make it. I don't think they have a chairman as yet, but Delos is sending out the letters that set up the meetings.

Regards.

George Fague
