A. Glass
J. Trafton
W. Triplett

The subject of our July safety training was Identification of HCN. The main purpose was to re-familiarize our people with the odor and recognition of HCN.

In conjunction with this, Hap Ferguson conducted an HCN sniff test to all Department 33 chiefs and operators, except two who were on vacation. These were given in Department 51 on July 21, 22 and 23.

I would like to express a special thanks to Hap for his cooperation and fine job that he did.

Fred Menotti
