paint now... pay later

*A special offer to
property owners in the
San Diego area who are
temporarily unemployed*

Let's face it: San Diego has more than its share of unemployment right now. But for those who want to make the most of their free time, here's a new Fuller way to help. If you're a temporarily unemployed resident in the last three months, we will open for you a special Budget Plan account with no carrying charges until you return to work. For details, you can purchase all the paint and equipment needed for your home painting project or exterior, and make no payments until September. Then you'll make only four equal monthly payments. It's a great way to save money on your home paint. It's a special offer available only to San Diego area residents who are temporarily unemployed. So come to see us as soon as you can.
