Ms. Adlene Harrison
Administrator, Region VI
Environmental Protection Agency
First International Bank Building
1201 Elm Street
Dallas, Texas 75270

Dear Ms. Harrison:

We shut down and inspect each of our boilers annually, prior to the annual certification process. On our No. 14 Boiler, we found in the inspection process that we must remove about 80 square feet of friable asbestos insulation in order to make some repairs. In order to meet our annual certification deadline, this removal must be done today.

This letter will serve as a notification of this work, as required by 40 CFR 61.22 (d)(2). The attached data sheet lists all the pertinent data.

Please contact me if you have any questions or comments.

Very truly yours,

A handwritten signature in dark ink, appearing to read 'PE Hime'.

P. E. Hime, Plant Manager
