SUBJECT: D9ZZ-2997-A KIT

PER YOUR REQUEST, I WILL CANCEL THE SMR-87-23, FMD KR9320.
THE CHANGE WAS SUPPOSED TO BE FOR AN ASBESTOS LABEL. BUT FORD PARTS
AND SERVICE CHANGED THE COMPONENT PARTS ON THE PACKAGING SPEC., MUCH
TO THE VAST CONFUSION OF EVERYONE. SINCE REVIEWING PRINTS FORD P&S
PROVIDED, FMD DISCOVERED THE COMPONENT PARTS CALLED OUT ON THE
5/29/87 PKG SPEC. WERE BLANK YET RIVETS WERE ONE OF THE COMPONENTS
TOO. PLEASE HAVE FORD RESUBMIT A PKG SPEC WITH THE OLD COMPONENTS
OF D9ZC-2294-BA AND D9ZC-2285-BA ON IT . IF THEY WON'T DO THIS
PLEASE OBTAIN AN EXPLANATION THAT WILL CLEAR THIS UP ONCE AND
FOR ALL.
I AM ATTACHING THE RFQ FROM FORD AND THE PACKAGING SPEC'S FMD
NEEDS CHANGED. THIS MUST BE A MISTAKE IN FORD'S SYSTEM, BECAUSE
NO PARALLEL CHANGES FOR THE 'AMR' KIT WERE RECIEVED. PLEASE ADVISE.
