Attn: Mary Dominiak

RE: AR-226 Submission
1st Voluntary Response to EPA November 4, 2004 Request

Dear Mary:

You received six boxes of documents from DuPont under cover of a letter from Peter Robertson. We realized after the boxes were sent to EPA that there were a couple of inadvertent clerical errors. Please accept this letter explaining the discrepancies and substituting corrected information. Volume 8 of the Steptoe Issue Binders had to be split into two volumes, causing the remainder of the volumes to be renumbered. So, the Steptoe Issue Binders should have been listed in the cover letter as follows:

- **Volume 1 - Plant/Personal Air Monitoring** - a set of documents summarizing C-8 air monitoring and modeling within the plant up to and including the fenceline;
- **Volumes 2-4 Air Sampling** - a compilation of underlying data for plant air sampling summarized in Volume 1;
- **Volumes 5-7 Air Monitoring/Air Modeling** - a set of documents summarizing DuPont's air monitoring and modeling conducted outside the Washington Works facility (beyond the fenceline);
- **Volumes 8 - 9 - Historical C-8 Water Sampling** - a set of documents summarizing the water sampling for C-8 in groundwater through 2001;

MR 281077

Mary Dominiak
November 16, 2004
Page 2 of 2

- **Volume 10 - EPA/RCRA** - a set of documents summarizing the water testing for C-8 under the RCRA Verification investigation and the RCRA Facility Investigation; and
- **Volume 11 - GIST** - a set of documents summarizing the water testing for C-8 under the Consent Order between DuPont and the West Virginia Department of Environmental Protection.

Pursuant to our telephone conversation of this morning, we have placed revised indexes for the Steptoe issue binders in the boxes submitted on November 15, 2004. The new indexes are revised as follows:

- Certain documents were produced in the binders but inadvertently left off of the indexes. The revised indexes include references to these documents in bold typeface.
- The CBI Document Log refers to the binder number from which each document was removed. The revised indexes contain a pinpoint reference to the place in each binder where each CBI document was removed.

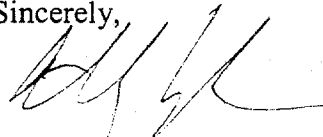

We have included one cumulative index, as well as indexes split out by box and by binder, each clearly marked, to facilitate your navigation through the documents.

Finally, two documents were inadvertently left out of the binders. We have added them to the boxes as follows:

- Document 1 entitled "Draft" was placed behind Tab 2 of Volume 29 of the production.
- Document 2, an email note explaining the attached spreadsheet, was added behind Tab 28 of Volume 27 of the production.

To be clear, there are no volumes between Volume 11 and Volume 27. Please contact us if there are any questions about these revisions.

Sincerely,

Anthony F. Cavanaugh

COMBINED INDEX

INDEX TO NOVEMBER 15, 2004 EPA PRODUCTION

BOX NO.	VOLUME NO.	DATE	EID RANGE	TITLE/DESCRIPTION	STEPTOE ISSUE BINDER
1	1	09/30/1980	EID077237 - EID077262	Teflon Divisions - C8 (FC-143) Control	PLANT/PERSONAL AIR MONITORING (Volume 1 of 1)
