Mr. V. J. Laskowski

ASBESTOS FIBRE REPORT

2nd Quarter - 1965

Re: Your letter of April 28, 1965

Asbestos Fibre sales remain at capacity levels, due for the most part, to the backlog of Export tonnage under the A.I.D. (Aid for International Development) Program.

The 2nd Quarter sales are based on the January 10, 1965 price level, an increase of 7% over 1964 price levels and markets are firm.

Total requirements exceed Mining capacities, and we are assured of a capacity sales level for the entire year, 1965.
