DECONTAMINATION EQUIPMENT FOR ASBESTOS ABATEMENT

SF&H CONTACTS:

During the past few months, the Corporate Industrial Hygiene Office has received requests for information on decontamination equipment related to asbestos abatement work. We have therefore assembled, for your reference, the attached package of commercially available products covering portable decontamination shower and change room, waste water filtration unit, and HEPA vacuum system. Please contact Mr. Bob Cheng at CTN 894-5844 if you have additional questions.
