Mr. William C. Herz, Executive Director
National Lime Association
200 North Glebe Road, Suite 800
Arlington, Virginia 22203

Dear Bill,

As the authorized representative of Carmeuse Americas and its affiliates, I hereby authorize the National Lime Association (NLA) to submit a request on our behalf for a two-year presidential exemption of our major source lime plants pursuant to Clean Air Act § 112(i)(4) from the requirements of the final rule titled: "National Emission Standards for Hazardous Air Pollutants: Lime Manufacturing Plants Technology Review" (89 FR 57738; July 16, 2024) (Lime Rule). Such exemption, if granted, would extend the compliance date from July 16, 2027 to July 16, 2029, while EPA reconsiders the Lime Rule.

The facilities in this request include the following major source lime plants owned and controlled by Carmeuse Americas and its affiliates:

1. Anneville, Carmeuse Lime, Inc., 3 Clear Spring Road, Annville, PA 17003
2. Black River, Carmeuse Lime & Stone, Inc., 9043 Highway 154, Butler, KY 41006
3. Buffington, Carmeuse Lime, Inc., 1 N. Carmeuse Dr., Gary, IN 46402
4. Grand River, Carmeuse Lime, Inc., 15 Williams St., Grand River, OH 44045
5. Longview, Carmeuse Lime & Stone, Inc., 599 Highway 31 South, Saginaw, MI 48137
6. Maple Grove, Carmeuse Lime, Inc., 1967 W. County Road #42, Maple Grove, OH 44815
7. Maysville, Carmeuse Lime & Stone, Inc., 9222 Springdale Rd., Maysville, KY 41056
8. River Rouge, Carmeuse Lime, Inc., 25 Marion Ave., River Rouge, MI 48218
9. Manitowoc, Carmeuse Lime, Inc., 4110 Rockwood Road, Manitowoc, WI 54220
10. Strasburg, O-N Minerals (Chemstone) Company, 1696 Oranda Road, Strasburg, VA 22657

The emissions standards subject to this exemption include hazardous air pollutant (HAP) standards for hydrogen chloride, mercury, organics, and dioxins & furans.

NLA will provide the agency with additional information on why the technology to implement the standard is not available and why it is in the national security interests of the United States to grant the exemption.

Respectfully,

Joseph Freudenberg
Environmental Counsel
