Subject: Calvert Cliffs Nuclear Power Plant
Baltimore Gas and Electric Company
Docket Nos. 50-317
Docket Nos. 50-318
CC-3028

Dear Mr. McGowan:

We invite your attention to the enclosed copies of Campbell-McCormick, Inc. and Owens Corning letters of December 16, 1971, and December 18, 1971, respectively.

Considering the stated problems in the above cited letters and the circumstances which are beyond control of Campbell-McCormick, Inc., we recommend approval of substituting the insulation materials as proposed.

The proposed materials, as certified by Owens Corning, the manufacturer, and presented during our meeting on December 7, 1971, with Campbell-McCormick and Owens Corning, conform to the specification requirements.

We request your comments/approval of the foregoing by January 3, 1972.

Very truly yours,

DIRECTORATE OF LICENSING

R. C. Williams
Project Engineer
