Dear Dr. Kehoe:

From the latest summary on finances of the lead project, it appears that the available funds must be about exhausted. Therefore, we are sending you a check for \$7500 to cover continuation of the work during the first quarter of 1954.

I hope the research is proceeding satisfactorily. I presume that the exposures in progress when you wrote in August have probably been concluded and a new series started. When it is convenient, we would appreciate your sending us a brief summary of the status of the work.

Very truly yours,

TECHNICAL DIVISION
