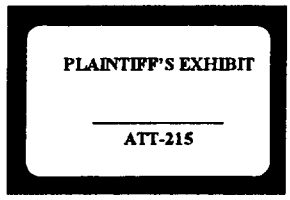
Occupational Health Working Group
Murray Hill, New Jersey
August 28, 1980

In Attendance:

R. L. Beach (Co-Chairman) - AT&T, Human Resources
G. P. Bisgeier, M.D. - NJ Bell, Medical
N. J. DeCapua - AT&T, Support Services
J. P. Dunn, M.D. - AT&T, Medical
M. J. Hanley, M.D. - BTL, Medical and Environmental Health
R. W. Stone, M.D. (Co-Chairman) - AT&T, Medical
G. M. Wilkening - BTL, Environmental Health and Safety



Absent:

A. G. Bickelman M.D. - C&P Tel. Cos. Medical
J. M. Degen (Secretary) - AT&T, Human Resources
J. R. Lauritzen - Western Electric, Environmental Engineering

Guests:

J. E. Barden - AT&T
M. M. Condie - AT&T
D. W. Eitner - AT&T
W. F. Rutkowski - Western Electric
F. R. Saunders - AT&T
W. J. Schreibeis - BTL
F. X. Worden - Western Electric

Future Meeting

October 2, 1980 - Murray Hill, New Jersey - 9:30 A.M.

Asbestos Exposure Guidelines

Mr. Beach reported that final comments have been received and incorporated in the draft of Guidelines for Exposure to Airborne Asbestos Fibers distributed at the July meeting. It was agreed that the Guidelines would be transmitted to Operating Company Personnel Vice Presidents in a System Letter as a strong recommendation. Copies of the proposed letter were distributed for discussion and comment.

Maxine Condie reported on the progress of efforts to investigate the logistics and potential cost of an employee information package about asbestos. The cost of a film treatment appears to be prohibitively high, even when produced through "in-house" CCTV facilities. It was agreed that the subgroup should continue their efforts, but should concentrate on producing a detailed outline of the material to be included in the information package. This outline would be used to develop a brochure which could be used on a stand-alone basis as the foundation for the employee information program.

Future Meeting:

November 10, 1980 - Murray Hill, N.J. - 9:30 a.m.

Occupational Lead Exposure DATA

REDACTED

Asbestos Information Program

Ms. Condie discussed the progress of the asbestos information program, which will consist of an audiovisual presentation and a handout pamphlet. A proposal for the production of the audiovisual has been received from the Corporate Television Group. Final details of the funding arrangements must be worked out, however, there appears to be no problem with the OHWG funding this project through the Bell Laboratories Case.

Asbestos Information Package

Ms. Condie reported on the progress of the videotape and handout brochure for providing basic information on asbestos exposure. A meeting was planned for December 17, 1980 to look at potential locations in New York City for taping of the "typical field conditions" to be portrayed in the package. It was suggested that the script be reviewed by representatives from Network, Residence, Business Services, and Western Electric Installation prior to actual videotaping.
