Subject: GMO mosquitos

Nancy,

I beg you to NOT allow this release of GMO mosquitos. I am a florida resident, so hearing that florida is one of the proposed locations is extremely concerning and disturbing to me, however I would be equally as concerned that this is actually happening anywhere! Allowing a GMO insect out in the wild sounds like a plague waiting to happen. This has not been adequately studied and I don't want to be a part of this mass experiment, I do not consent to that. Please use your authority for good and not evil, and stop this atrocity. Thank you
