Subject: Reporter question on today's West Lake Landfill announcement

Hi:

This is John Stang, a reporter for RadWaste Monitor. I've got one question on your news release on the Waste Lake landfill option that was selected. I'm trying to match the announcement with the appropriate option listed in your big 800-page report on the topic from last year.

Is your selection the same as the one listed as "52.9 pCi/g to a 16-ft depth partial excavation" in the report?. It is the one closest to the price mentioned in your official announcement

Or is it one of the other alternatives?

Thank you.

John Stang
