Fuller's New Latex House Paint

Colors Most Likely to One Coat — Eliminates Hours of Back-breaking Surface Preparation

- COVERS ANY PAINTABLE SURFACE — wood, metal, stone, masonry.
- LASTS 10 YEARS OR MORE under normal conditions — 50% longer than comparable conventional paints.
- CUTS WORK IN HALF — no extensive priming needed even on old new latex paints. Fuller's new paint addition eliminates special primers over flaking surfaces.
- COLORS WON'T FADE — new acrylic formula blocks sun out.
- COATS ON AS EASY AS BUTTER — dries fast, no sagging, no dripping on 10 minutes.
- CLEANUP WITH WATER — no thinner needed.
