GENERAL ELECTRIC NEW YORK CITY  
ASBESTOS USAGE AND OSHA CONSIDERATIONS

Confirming phone of December 21 to Marshall, Mr. Solon is sponsoring a full day meeting with General Electric on January 12 in New York City. There is considerable interest in GE in the above subject covering all aspects including Public Health, In-House Production problems, and Product Warranty problems. They recognize that Johns-Manville is in an advanced position on these subjects and we expect 10 to 20 key GE people to attend.

Jack is putting together a full program, including Dr. Wright, Ed Fenner, Hugh Jackson and others, as needed. We would like very much for you to attend. We do not know yet, but General Electric may bring a Senior Vice President to this meeting, in which case we would like you to represent us at that level.

We will be flying Commercial to New York on January 11, staying at the Dorset Hotel, with a review of our program the night of the 11th. We expect the meeting to begin with lunch at 12:00 in the General Electric Executive Dining Room, followed by a meeting at 1:00 P.M. to end at 3:30 P.M. We would expect to depart New York at 5:45 P.M.

Please advise if you can join us. Thank you.
