

1 in the community.

2 Q What type of articles were you looking for,
3 specifically?

4 A I confined myself to articles that dealt with
5 asbestos and disease and connections with asbestos
6 exposure and disease. Some articles that had to do
7 with the industrial applications or processes or
8 something like that I did not search the literature
9 for. That's an entirely different engineering or
10 manufacturing literature that I didn't concern myself
11 with.

12 Q Did you find articles dated prior to 1965?

13 A Yes, indeed I found many, many hundreds.

14 Q How many --

15 Many hundreds?

16 A Yes. Well, actually, the number on one of my lists,
17 which is not a complete list, is 720 some, up to the
18 end of 1965, but it's certainly not a complete list.
19 There are more articles than that.

20 Q Could you give me some idea and give the jury some
21 idea of how many of those articles were prior --
22 dated prior to 1956?

23 A Yes. Well over 400.

24 Q Before 1956?

25 A Yes.
