University of Cincinnati
Cincinnati 19, Ohio

Dear Bob:

Herewith clinical record on Michalski on whom urine sample and smear were forwarded recently.

This case was apparently presented to Woody as one of lead intoxication from exposure to leaded gasoline.

If you will mail me the reports from the analysis and stipple-cell count, I will attach same to record for my files and to the copy which is being held for forwarding to Woody. I should, therefore, like two copies of the laboratory report if this is convenient.

Cordially,

WM/rl

Willard Machle, M.D.

New York 4, New York

Dear Dr. Woody:

Herewith Clinical and Laboratory Report on [REDACTED]

The clinical and laboratory findings obtained while the man is at work, exclude lead intoxication as a cause of his illness.

Sincerely,

WM/rl

Willard Machle, M. D.
