Re: **REDACTED**
vs. Sherwin Williams
Claim No. C979

Dear Bill:

On August 11, 1978, we appeared and asked the first hearing be continued for two weeks to enable us to further confer with Dr. Drevets to determine whether or not the Fund should be made a party.

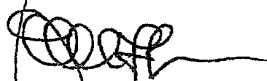

In the medical records, there is a history of asthma and bronchitis. Bill Howard informs me that the Company would not have employed with a history of asthma but would have employed her with a history of bronchitis.

Therefore, it will be necessary to obtain an opinion from Dr. Drevets that the medical records reveal the asthma condition existed prior to September, 1976, in order that the Fund made be made a party based upon a misrepresentation in the application for employment.

Please follow this up with Dr. Drevets and obtain a report for us at your earliest convenience.

Very truly yours,

HALL, LEVY & LIVELY
