May 24, 1976

Dear Professor Perry:

This will respond to your letter of March 18, 1976 to Mr. T. W. Carmody regarding information on the costs of achieving compliance with the OSHA Vinyl Chloride standard in Union Carbide's Texas City Plant.

I am pleased to advise that Union Carbide is willing to provide such information and otherwise assist you in your research project on condition that the information remain strictly confidential as you have indicated. I have arranged with the Texas City plant management for you to visit the Texas City plant at a mutually convenient time both to receive and discuss the data and, if you are interested, to tour our vinyls operations there.

Your host at Texas City will be Mr. Merle D. Eisenhour, Production Manager - Vinyls. The Plant Manager is Mr. Damon L. Engle. Please contact Mr. Eisenhour at P. O. Box 471, Texas City, Texas, 77590, Telephone (713) 945-7411, Ext. 681 to make all arrangements.

We wish you a fruitful visit to Texas City and a successful research project. We will be keenly interested, of course, in any publications that will result from your work.

Very truly yours,

A. E. Montagna
Operations Manager - BioSafety
