New York, New York 10016

Dear Ken:

On December 14, 1965 I wrote to you for an answer to the question - Is it true that individuals coming in contact with asbestos can have as a result, malignant mesotheliomas of the pleura? If so, how much exposure is necessary? Are there asbestos fibers in the air? This question was submitted to the Question Clinic of the Journal of Occupational Medicine. To date I have not heard from you. May I have a reply?

Best regards.

Sincerely yours,

Rex H. Wilson M. D.
