ETHYL CORPORATION

**INTER-OFFICE
CORRESPONDENCE**

TO	Mr. M. P. Murdock	ADDRESS	New York
FROM	W. R. Perdue, Jr.	ADDRESS	New York
SUBJECT	TML Clearance-- New Zealand	DATE	November 25, 1960

Dr. Kehoe has now received advice of consultation with authorities in New Zealand resulting in confirmation that "there is no restriction on the introduction of petrol blended with tetramethyl lead."

In accordance with the practice in other countries, it would appear to be in order that a refiner introducing this product might advise Dr. Kennedy, Director of Public Hygiene, Wellington, New Zealand.

W. R. Perdue, Jr.
