Three Major Producers Of Building Materials Sign Sales Agreement

1/27/61

By a WALL STREET JOURNAL Staff Reporter

NEW YORK—A long-term sales agreement among three major producers of building materials—Bestwall Gypsum Co., Certain-teed Products Corp. and Johns-Manville Corp.—was disclosed.

Under the agreement, Johns-Manville will market gypsum products made by Bestwall Gypsum, and Bestwall and Certain-teed will sell Johns-Manville's insulation board on the West Coast. It was indicated that the agreement may be broadened to other products in the future.

A press release for the three producers said the agreement was "designed to utilize more fully the plant facilities of each company and to provide a better distribution of products and better service to customers of each company throughout the United States."
