Re: Nevada Power Company v. Monsanto, et al.

Dear Randall:

Monsanto has reviewed its First Set of Interrogatories and First Set of Document Requests to Nevada Power.

Monsanto notes that Nevada Power refused to answer First Set Interrogatory No. 8 (on damages) because of the Court Order, then in effect, limiting discovery to statute of limitations issues.

Monsanto hereby withdraws Interrogatory No. 8 and states that Nevada Power does not need to answer it.

Monsanto is submitting a new damages interrogatory.

If you have any questions, please contact John Thorndal or me.

Very truly yours,

Bruce A. Featherstone
