BY CARRYING THE FULL S-W LINE

TERMS

On Paints, Varnishes, Lacquers, Coal-Tar Products, Flaxoap, ODP Lead and Brushes—60 days net; 2% for cash within 10 days from date of invoice.

On Turpentine, Linseed Oil, Alcohol, Dry Colors, Insecticide Materials and goods not of our own manufacture—30 days net; 1% for cash within 10 days from date of invoice.

IMPORTANT

Shortages or errors in billing must be reported within ten days from receipt of shipment to secure proper adjustment.

In making all shipments our responsibility ceases when we receive a signed bill of lading from the transportation company. Claims for losses and damage in transit must be filed with the transportation company by our customers. If shipments are received in a damaged condition, or short in the number of packages, be sure to have the freight agent make such notation on the paid expense bill. This will enable you to file and collect claim without affidavit.

SHERWIN-WILLIAMS PRODUCTS

WAGON AND IMPLEMENT PAINT

For painting farm machinery, tractors, wagons, implements and similar surfaces with bright, permanent colors that dry with a high gloss. Covers approximately 400 square feet per gallon one coat.

	pts.	qts.	gals.

WALL PAINT No. 96

Heavy Body

Especially developed to produce high pebble stipple effects but will also produce the old lead and oil sharp stipple as well as a variety of other textures.

Not intended as just a heavy-bodied wall paint but an ideal product to produce many types of beautiful wall finishes, either tinting and leaving in a stipple effect or glazing over many possible beautiful glaze and color effects. One gallon will cover one coat approximately 250 square feet light stipple or 150 square feet heavy stipple or texture.

gals.	5 gals.
1 95	1 85

WALL PRIMER AND SEALER

Without question the most effective primer and sealer for all types of plaster, brick and concrete interior walls, as well as most wall boards. Primes and seals walls against suction, enabling succeeding coats to cover properly, evenly and with greater ease. (For porous wall boards use S-W Tri-Seal.)

Covering capacity of Wall Primer and Sealer will vary according to the porosity of the surface but on the average one gallon will cover, one coat, approximately 300 square feet on sand finish plaster, or 750 square feet on tight smooth plaster.

qts.	gals.	5 gals.
54	1 80	1 70

A strictly pure white lead ground in pure refined linseed oil and is actually finer in texture than any other white lead on the market. ODP White Lead is soft in the package and easy to work up, yet it preserves a covering capacity and a wearing consistency which is unexcelled.

Available in paste and soft paste at market prices. See current lead price card (form E-366).
