Mr. Micheal J. Vaudreuil
Aluminum Co. Of America
ALCOA Room 627 D
Pittsburgh, PA 15219

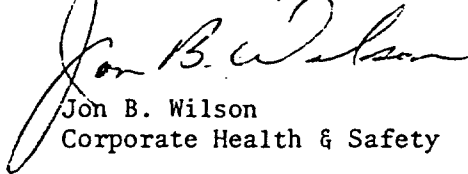

Dear Mr. Vaudreuil:

In reply to your letter dated 1980-08-14, we have checked our plants and have found that the only areas of asbestos use we have are two eight inch fiberglass covered wire leads that are attached to the heater bans on our hydraulic molding machines.

If you have any questions to the above, please let us know.

Very sincerely,

PEP INDUSTRIES, INC.
