Re GROUP POLICY
8577-G

Gentlemen:

In the interest of economy and improved procedure in both your office and ours, a new certificate has been developed which has been very favorably received by our policyholders.

At present, under your Group insurance plan, one certificate is used for employees insured for Personal insurance and a different certificate for those insured for Personal and Dependent insurance. The new certificate will be used instead of both your present certificates.

When using the new certificate, no replacement is required when an employee's coverage changes from Personal to Personal and Dependent or vice versa. This makes it unnecessary for you to handle replacement certificates on such cases.

To give you a better picture, enclosed is a specimen certificate showing (in brackets) the special wording used. Of course, all provisions of the certificate prepared for your employees will be in accordance with the terms of your Group insurance plan.

When the present stock of either your Personal or Personal and Dependent certificates is depleted, we would like to print the new certificate for your new employees. It will not be necessary to replace the certificates now held by your insured employees.

With this thought in mind, your signing and returning the enclosed copy of this letter will be appreciated.

Very truly yours,

T. E. McCormick

T. E. McCormick
