

MacRAE'S

vol. 4 product classifications

Public Library

MAR 29 1982

Dallas, Texas

Welcome to the 89th annual edition of MacRAE'S Blue Book. Over the years, we've worked hard to make sure that MacRAE'S lived up to its reputation as America's *original* Industrial Directory. Not only did we set the standards by which an efficient directory should operate, but we've also dedicated ourselves to coming up with fresh ideas and innovations to help you keep pace with an ever expanding marketplace. In other words, we've stayed in business by letting millions know that you're in business.

Some of the latest additions to MacRAE'S arsenal include: MAXCOM, our new, toll-free computerized lead referral system; and our recent incorporation of 48 state directories, which will add thousands of new listings, and therefore, thousands of new readers to MacRAE'S Blue Book.

Of course, all information pertaining to the 50,000 companies listed in this issue has been thoroughly updated. To the best of our abilities we have listed only the most recent addresses and phone numbers, sales offices and distributors, products offered, and capital ratings.

volume 1: corporate index

This section includes company names and addresses arranged alphabetically, their sales and branch offices, and their *capital ratings. Also included is a brief liner on what that company produces or the service it performs, and the product or service trade names. **Trade name Index** includes registered and non-registered trade names of companies listed.

**volumes 2,3 and 4:
product classifications**

These volumes contain companies listed by product headers. Companies are listed alphabetically with their most current addresses and phone numbers. Sales outlets and branch offices are also provided. **BOLD FACE** listings are the names of advertisers and may have a line referring to an ad in any of the volumes, or under any of the various product headings.

**volume 5:
manufacturers' catalog data**

This volume contains pages of manufacturers' data arranged alphabetically. Pages can include graphic ads, logos, company capabilities and facilities, and a list of their offices, outlets and subsidiaries.

***capital rating system**

Most companies listed in volume 1 include a capital rating listing which will appear as a single, double or triple digit number in parenthesis, on line with the company phone number. The capital rating system works according to hundreds of thousands of dollars of invested capital so that:

(1) = \$100,000

(10) = \$1,000,000

(100) = \$10,000,000

Capital ratings may also be listed by fractions so that ratings of (1/4) or (1/2) will represent a rating of \$25,000 and \$50,000 respectively.
