December 10, 1937

Dr. Robert A. Kehoe,
University of Cincinnati,
College of Medicine,
General Hospital,
Cincinnati, Ohio.

Dear Dr. Kehoe: -

We wish to inform you that most of our men under observation have been laid-off indefinitely. The Company wishes to discontinue with the tests until further notice. Work has been very slack especially in the Foundry Department, and as soon as business conditions improve we will undoubtedly want to resume the observations you have been making for us.

With kindest personal regards,

Sincerely yours,

Paul M. Holmes
