1/6 Backer Board

Dear Joe

Please review the file under the subject material so that you can discuss it when you are here at a meeting I understand will be in the next two (2) weeks time.

Please refer to my letter of February 28, to John Ball. We have heard nothing further from Johns-Manville since that time. There was a question as to what disposition Johns-Manville wanted the plant to make of the material which had been returned to the plant, which strictly speaking, was still Johns-Manville's.

The materials have become further "shop-worn" and have little value other than to be cut up and used for (shavings).

Very truly yours,

HENRYALL GYPSUM COMPANY
