CERTIFIED MAIL
RETURN RECEIPT REQUESTED

Mr. Franklin S. Humphrey
Rt. #1
East Rochester, Ohio, 44625

Dear Sir:

Enclosed you will find laboratory report of raw milk sample collected at your farm on July 14, 1970, which indicates that the level of Aroclor 1254 has dropped below the seizure tolerance established by Federal Food and Drug Administration.

With this report, we are pleased to release your milk for sale.

We thank you for your cooperation in this matter, and would advise that we will periodically collect samples of your milk to ascertain the level of such residue.

If we can be of assistance to you in any way, do not hesitate to contact us.

Respectfully yours,

OHIO DEPARTMENT OF AGRICULTURE

R. M. Weiner
R. M. Weiner, Acting Chief
Foods, Dairies, & Drugs
