

Material Safety Data Sheets are included for the following chemicals. These chemicals are found in the Solvents block or the EDC block as either feeds, products, by-products, process fluids, or chemicals related to the operation of the plants. This list does not contain every by-product or material found in the plant, but was designed to be as comprehensive as possible.

Methane	Chlorine
Methyl Chloride	Anhydrous HCl
Methylene Chloride	Aqueous HCl
Chloroform	Phosgene
Carbon Tetrachloride	Dowtherm G*
Ethylene	Freon-11
Ethyl Chloride	Freon-22
Ethylene Dichloride	4-methylmorpholine
Trichloroethylene	Ferric Chloride
1,1,2-trichloroethane	Ferrous Chloride
Methyl Chloroform (1,1,1-trichloroethane)	Stainless Steel-Ni
1,1,2,2-tetrachloroethane	Stainless Steel-Co
1,1,1,2-tetrachloroethane	50% Sodium Hydroxide
Perchloroethylene	Sodium Hydroxid
Hexachloroethane	Sodium Thiosulfate
Propylene	
Propylene Dichloride	
Hexachlorobenzene
