

GOOD REASONS why you should investigate...

NATIONAL AIROIL

TYPE "S-A" OIL BURNERS

- NATIONAL AIROIL Steam Atomizing Oil Burners *thoroughly atomize* and *completely burn* the lowest and cheapest grades of fuel oil or tar . . . require only minimum supervision and maintenance.
- Only slight oil pressure and temperature is needed . . . and internal atomizing venturi feature assures low steam consumption.
- NATIONAL AIROIL Type "SA" Oil Burners are adaptable to all types of industrial heating, power or process furnaces . . . are suitable for firing above stoker grates on conversion to oil.

Other "SA" modifications designed for: the burning of Colloidal fuel ("SAR")—Large capacity operation ("SAL")—Sludge burning ("SAD")—Combined steam and mechanical atomization (DUAL STAGE).

More FREE BULLETINS

16 MOTOR CONTROLS—dc-ac controls, ac manual, full-v duced voltage starters, ac re contactors, etc. 28 pages. Allis Co, 130 W Greenfield Ave, Mil Wis.

17 DIAPHRAGM MOTOR V air operated, single or sealed, 50 psi max working temperatures to 160 F. 4 Sheet 619-2. Minneapolis Regulator Co, Brown Instrument Sta 64, Wayne & Windrim Ave delphia 44, Pa.

ELECTRICAL EQUIPMENT

18 FUSES — renewable one-time, plug and copper fuses, fuse holders. 24 pages. 16-132. General Electric Co, tion Materials Div, Bridgeport

19 MAGNETIC AIR CI BREAKER — horizontal separation, arranged for installa vertical lift switchgear, rated, 4 pages. Bulletin 16N2346B. Allis mers Mfg Co, 952 S 70th St, Mil Wis.

20 INDUSTRIAL HEATERS HEATING DEVICES—spot dip and fin for almost every heated 50 pages. GEC-1005D. General Co, Schenectady 5, N. Y.

21 RECTIFIER APPLICATIO question and answer folder. ican Rectifier Corp, 95 Lafayette York 13, N. Y.

22 RHEOSTATS — complete line power rheostats for industrial commercial use. 24 pages. Bulletin Ward Leonard Electric Co, Mount non, N. Y.

23 ELECTRICAL TAPES — wi treated paper backing and pre sure-sensitive adhesive. 8 pages. nesota Mining and Mfg Co, 900 Pas St, St. Paul 6, Minn.

24 CONTROLS, RESISTORS—car constant impedance, wire, wa controls; power rheostats and resistors 20 pages, Catalog 53. Clarostat Mfg Inc, Dover, N. H.

25 MAGNETIC MOTOR STARTERS with vertical overloads below tactor. 8 pages. Arrow-Hart & Hegman Electric Co, 103 Hawthorn St, Hartford 6, Conn.

MAINTENANCE AND SAFETY EQUIPMENT

26 EYE PROTECTION — cup spectacle and welders goggles clear, tinted and heat treated lenses. 12 pages, Catalog G-55. Pulmosan Safety Equipment Co, 644 Pacific St, Brooklyn 17, N. Y.

27 MAINTENANCE, PRODUCTION SAFETY EQUIPMENT — anniversary edition. 84 pages. Catalog 55. Martindale Electric Co, Box 817, Edgewater Branch, Cleveland 7, Ohio.

28 SMALL PRECISION METAL PARTS—special pins and pivots, screw driver blades, all types of rods, swaged rods, wires and tubing. Bulletin. Torrington Co, Specialties Div, 500 Field St, Torrington, Conn.

29 STEEL CHANNELS AND FITTINGS—all-steel adjustable fram ing. 44 pages. Catalog 152. Flexo Products, Inc. 1348-60 W Washington Blvd, Chicago 7, Ill.

30 CONCRETE DENSIFIER—contro set and reduces water content without increasing air content. 8 pages. Sika Chemical Corp, 35 Gregory Ave, Passaic, N. J.

MATERIALS HANDLING

31 ELEVATORS AND CRANES—ha and electrically operated elevators with single, hinged and telescoping rights; portable cranes with fixed or revolving bases, etc. 24 pages. Bulletin

When Reheat is Considered...

take a close look at this specific Kellogg experience!

At the company's books show 36 reheat jobs here and abroad. Some of these have been completed . . . several are underway . . . and others are yet to be started—but they all add up to a large percentage of all reheat systems—including those operating and those to be built.

In addition to this specific experience on completed reheat jobs, Kellogg approaches each power piping project with a background that includes the fabrication of piping for scores of steam installations which are today producing more than 6¼ million KWs . . . and operating at temperatures ranging up to 1050°F . . . and pressures. One of the more recent jobs turned out in the Kellogg fabricating shops included the stainless steel main steam piping for a reheat system which will operate at 1100°F and 2350 psig.

The metallurgical "know-how" required to bend this material . . . to weld sections into faultfree sub-assemblies . . . and to accurately heat treat is the result both of experience and specific development work. Kellogg pioneered special welding electrodes and special welding techniques for Stainless 347 . . . and such work is one of the fundamental reasons why Kellogg is specified again and again by important companies for critical power piping jobs all over the world.

These leading companies are among the many major producers of power who use M. W. KELLOGG POWER PIPING . . .

- American Gas & Electric Service Corp.
- Boston Edison Co.
- Central Hudson Gas & Electric Co.
- Compagnie Auxiliaire De Electricidad
- Compania De Fuerza Del Suroeste De Mexico S.A.
- Consolidated Edison Co. of N. Y.
