Dear all,

Many thanks again for your active participation in the discussion meeting last week. Attached please find the slides of the presentation given by [REDACTED] about the results of the SEA-PFAS pilot.

In the end we were running a bit out of time so we could not discuss all questions left. In particular, there was no time for discussing the suggested options for (environmental) impact assessment (slide 23-24) and the questions on slide 26.

We would very much appreciate if you could share your thoughts, comments, questions and suggestions on this. Please send your input before the 14th of June. Based on the input we will receive, we will come back to this in our next meeting.

Our next meeting was scheduled on the 16th of June, but I want to suggest to postpone this one week, till the 23th of June.

Thank you very much for your reactions and input!

Best regards,
