Kevin,

Could you work with Robin Kime in my office to set up something next week?

Thanks, look forward to seeing you.

**Subject:** Follow Up from API Meeting

Samantha –

Thank you again for meeting with our API group earlier this week. It was a pleasure meeting you. I wanted to follow up with you on two things. First, I have attached the material that I provided you on our small remote incinerators issue in Alaska. As I mentioned, we would be interested in discussing this with the appropriate person, preferably someone at a policy making level, if that person is in place. I also wanted to check your availability to meet with one of our technical experts who will be in Washington beginning March 21 – 22 to discuss methane regulation and other issues, if you are available.

Thank you again for your consideration. I have cc'd Kjersten Drager with our office here in Washington. While I handle our EPA portfolio, she has primary responsibility for our Alaska issues generally.

We look forward to working with you.

KJA
