

Lead Industries Association, Inc.

292 Madison Avenue • New York, N. Y. 10017 • Telephone: (212) 679-6020

To: Recipients of Kettering Abstracts on Lead

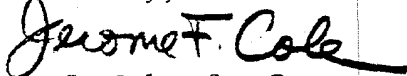

Since 1965, the Lead Industries Association has sponsored, together with the International Lead Zinc Research Organization and the Lead Development Association, the preparation of the "Kettering Abstracts of Available Literature on the Biological and Related Aspects of Lead and Its Compounds," better known as the "Kettering Abstracts on Lead." In addition, the Lead Industries Association has published and distributed these abstracts free of charge to an ever-growing list of recipients all over the world.

Because of the expanding costs and the loss of one of our sponsors, we regret that we must now impose a charge of \$25.00 for a yearly subscription to the "Kettering Abstracts on Lead." Further, we intend to effect other economies by eliminating the ring binders and issuing the "Kettering Abstracts on Lead" in "Journal" form. These changes, however, will not affect the content of the "Kettering Abstracts on Lead" which will continue as always to include extensive abstracts of the world's literature to the biological aspects of lead.

It should be recognized that the \$25.00 per year subscription charge covers only a small portion of the costs of preparing, printing and distributing the "Kettering Abstracts on Lead." However, it is essential that we have this source of income to insure the continued publication of the "Kettering Abstracts on Lead."

Please fill out the form below and return it with your \$25.00 payment as soon as possible. Please note that the final issue of Volume VII and the indexes for Volumes VI and VII will be sent to all current recipients of the "Kettering Abstracts on Lead."

Sincerely,

J. F. Cole, Sc. D.

Director, Environmental Health
