Hi Stephanie,

Our apologies for lack of messaging on this today.

This morning the Administrator signed the Notice of Data Availability. Under this we are simply seeking comment on an approach that discounts imports for purposes of setting a domestic mandate.

We are happy to discuss further at your convenience.

Tate,

First of all, congratulations on the new job! I am so sad to no longer be working with you on a daily basis, but by the fact that you're still getting a late night email from me, I clearly won't be a stranger.

Can you provide some background information and further details on what led the EPA to it's announcement today regarding biofuel levels in the RFS?

The Governor is very concerned.

Best,
Stephanie
