Thanks, Ken. We will do our very best to welcome you here and to help get you around so you can see "first hand" some of our unique Alaska issues and meet some of the people working these issues. I won't hesitate to contact you if anything comes up before then that might warrant your attention.

Look forward to seeing you up here. I can also promise you relief from the high temperatures and humidity!

Regards,  
Larry

Larry:

It was great to visit with you at ECOS and the leadership meeting at the EPA last week. Needless to say, I am very excited about the trip to Alaska and the opportunity to see those issues that are important to Alaska and how we can work together to solve them. Michelle in Region 10 has been a big advocate of the issues in Alaska, so I am glad we will be all there together.

Let me know if I can assist in the meantime.

Ken
