STATEMENT OF FACTS TO THE GENERAL PUBLIC

Several weeks ago Dutch Boy's buyers officials approached me, saying, "We're offering on their new line of Malesia 12001. It's a lot at a fantastic wholesale price and . . . inner company . . . your production system encountered heavy losses; disaster, and, that's only requirement was that we take all of it immediately. We balanced . . . after all this was Dutch Boy's pride and joy in a proven effort in pilot plant and up to the grade of domestic level. We found our last four advertising left, transferring labor costs, advertising and, yes, there are figures and here, too, we could not the same low retail price and still be volume . . . and then we said 'Aha! B.' And . . . and . . . when we saw after the second buying public Dutch Boy's in Housley famous Malesia at almost half the second retail price! We put every coin and drop of it . . . in at the lowest taken . . . moved to the buyers . . . on sale for quick disposal at a price that we doubt will ever be matched anywhere in the U.S. unless forced bankruptcy necessitated such a drastic sacrifice.

GERALD'S PAINT TAKES THE ENTIRE LOT AT A STARTLING MANUFACTURER'S SACRIFICE
