Re: Sapp v. Johns-Manville, et al.

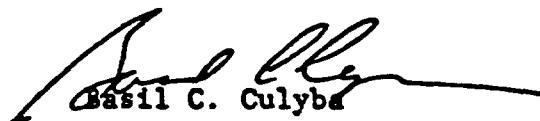

Dear Mr. White:

Enclosed is the Asbestos Survey Document that we discussed today. This survey covers all departments at the Pittsburgh Works of J&L. The Asbestos Source Questionnaire for the Aliquippa storeroom is also included because reference is made to this storeroom in the Pittsburgh survey.

This letter also confirms the cancelation of the J&L deposition previously scheduled for September 16, 1982. In addition, I would like to schedule the review of J&L purchasing documents for Wednesday, September 22 at 10:00 a.m. rather than on September 21 as we discussed. The review will be at J&L's document storage facility, National Underground Storage Company located in Boyers, PA, telephone number 794-8474. The storage facility is approximately one mile west of Route 8 north of Butler on Route 308. Unless you notify me otherwise, I will assume that the above schedule is acceptable to you.

I trust that you will forward the enclosed document to other interested parties in this litigation and will notify them of the cancelation of the deposition and the scheduling of the document review as described above.

Very truly yours,

Basil C. Culyba
