PCB

Europe

- (Baye meeting minutes
2/15?)

Mexico - OK - Q & A in

Brazil - OK - Q & A in

- Don't center too long periods (include

environmental
terms, clauses?)

✓ - Have people monitor shifting legal situation

- Review insurance coverage applicable

✓ & sales, & summarizing situation &
noting any peculiarities of local coverage
increasing our exposure

- Consider the advisability of creating
✓ our own reserves and recommend
levels for review -

- Get the confirming opinions from Europe

- Finland

- Sweden

- U.K.

- Ask people who have reviewed
our indemnity approach to ~~now~~ now
advise how best to minimize
exposure & the extent their
present opinions don't cover
the point -

0533169

- Make sure warnings go to group
required by local legal considerations

- Have East European sales occur from Co. in
country where it sued we have best posture.

- ✓ ① Make certain that sales of PCB's are made only to bona fide dielectric users
✓ Chapman - statement on insurance company.
- ✓ ② ~~the~~ Consult with local counsel and ~~determine steps to be taken to determine~~ how best to minimize Monsanto's exposure from continuing sales for dielectric use without the use of hold harmless agreements. Report back to St. Louis what actions will be taken and provide us with the legal assessment of the risks we run.
- ✓ ③ Irrespective of any other actions, adequate warnings as to potential environmental and human hazards must be given including the need for safe disposal.
- ✓ ④ Check labels on all drums WPK + Newport
HAMK
Any sales contracts covering more than one year must be approved by St. Louis

Standard practice on notification of warning to accompany acknowledgment of orders.
