

Conference with Robert T. M. Manufacturer of
Original of lead for use in Shields - TML

upward with SO Cal. (p. 10) also about TML

Next step Table 2, T. M. C.

Partial Price Cost
Production: 2.15/100

Fast 100 pounds
→ Need 500 pounds for development
of TML
Need Production of 15 million pounds

Seals
Kneel
Well
Knee

1 Development of a program of conference with customers' demands
(a) Memorandum prepared by Robert T. M.

(b) Example - The TML is unbalanced at the customer
and led to the development of a program at up to M 500 (p. 10) meeting

(b) T. M. required for development of modification of product requirements
all previous a manufacturer of metal alloys in product form
approximate and results of investigation.

3. Substantiated evidence to only a small degree up to M 500, however
M-500 not yet defined, in terms of design, test data, material properties,
TML in the next 10 years (development)

2. Tags Substitution of M 500 for M 1000 (TML)
