CONFIDENTIAL

Robert A. Kehoe, M. D.
Kettering Laboratory of Applied Physiology
Eden Avenue
Cincinnati, Ohio

Dear Dr. Kehoe:

We shall be very pleased to have you visit our plant on Thursday of next week. Please suit the day and time to your convenience.

We have already received the two small cans of tetraethyl lead and have proceeded with our experiments. Results have been somewhat gratifying and we hope that we shall be able to give you a better picture of our process at the time of your visit. We are using great care in handling, but look forward to your description of the more specific dangers we may encounter.

I went to Cincinnati about a week ago, on other business, but believe you were in Rochester, New York at the time.

We greatly appreciate your cooperation in this matter.

Very truly yours,

THE LAKE ERIE CHEMICAL COMPANY
