DOCUMENT DESCRIPTION: Correspondence Between The Saranac Laboratory & the Owens Corning Legal Dept

January 14, 1941

Dr. Leroy U. Gardner,
The Saranac Laboratory,
7 Church Street,
Saranac Lake, N. Y.

Dear Dr. Gardner:

We are planning to take various interested members of the Industrial Commission of Ohio to our Newark Plant and explain to them the safety and hazard features of our operation. In this connection, we would like to show them your report and explain to them our health program, in which you are supplementing this report with further experiments based upon inhalation by animals.

If you have no objections to this procedure, will you please let us know, - and if you have any further comments or suggestions, we will be glad to receive them.

Very truly yours,

OWENS-CORNING FIBERGLAS CORPORATION

January 20, 1941

Dr. Leroy U. Gardner, Director,
The Saranac Laboratory,
Saranac Lake, N. Y.

Dear Dr. Gardner:

Thanks so much for your letter of January 17. It is indeed good news to hear that you do not feel you will encounter any evidence of an asbestos-like reaction since none of the fiber reaches the interior of the lungs.

Very truly yours,

OWENS-CORNING FIBERGLAS CORPORATION
